Introducing The Language of God Book Series by Helena Lehman,

Showing How God the Father and His Son Reveal Themselves Through Their Creation

The Language of God book series by Helena Lehman offers a scholarly and fascinating challenge to long held beliefs involving archeology, history, and religion. The books present compelling evidence that Yahweh made a clear prophetic record of His purpose for mankind that was known at the dawn of human history. This record was revealed using the hidden "Language of God." This universal pictorial and metaphorical language reveals deep spiritual truths within the structure of created things, and in Judeo-Christian religious symbols and rituals.

This four-book series contains over 2000 pages of information. Each book covers a special area of biblical study, which reveals the diverse ways that God, and our ancestors utilized the Language of God to communicate spiritual truths throughout time.

All the books contain unique illustrations, source references, star maps, charts, full bibliographies, and exhaustive indexes. Read excerpts and reviews, and purchase autographed books at the Pillar of Enoch Ministry web site at <http://pillar-of-enoch.com>. Books are also available at BarnesandNoble.com, Books-A-Million.com, Amazon.com, and Amazon.co.uk. Retailers can purchase books from Ingram/Spring Arbor.

Here are content summaries for all 4 books:

"The Language of God in the Universe" takes a profound new look at Sacred Astronomy, the Gospel in the Stars, and their connection to the Bible. By understanding the allegorical Language that God utilizes to communicate to mankind, and applying it to the Zodiac and the Bible, both are convincingly shown to be filled with similar prophetic imagery. Many allegorical ties between the Bible, and the Gospel in the Stars are revealed, and once mysterious prophetic Scriptures suddenly make sense. The Universe, and the forty-eight constellations of the ancient Zodiac are like biblical parables on a giant scale. They tell a compelling story that fully agrees with the Bible, and the unfolding of biblical history. The Magi who found Christ likely knew this, and the book examines their possible use of Sacred Astronomy to locate His whereabouts in Bethlehem in 3 BC.

Secondly, the parable-like allegories found in our Solar System, upon the Earth, and in various elements of nature are explored. By seeking the Language of God apparent in every created thing, each layer of Yah's creation can reveal startling truths about our Creator, His love of mankind, and His desire to save us from our worst enemies: Satan and our fallen nature.

"The Language of God in Humanity" explores what it means to be created in God's image, and how this reflects God's ultimate purpose for humanity. First, it shows how the dual witness of the Gospel in the Stars, and the Bible reveal God's allegorical Language of love to humanity. Then, using the knowledge of love revealed in these witnesses, Blood Covenant ceremonies like Communion are shown to symbolically communicate the correct basis for all social relationships.

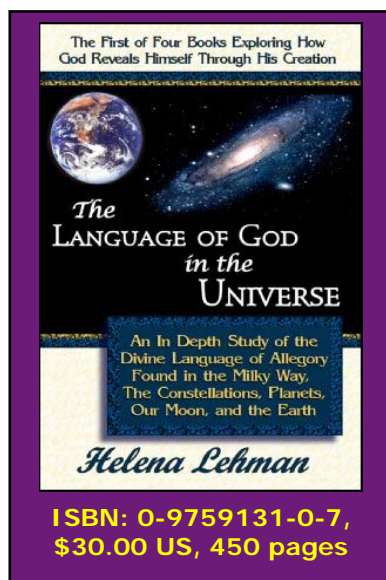

Next, by comparing the familial relationships between God and His human children, "The Language of God in Humanity" shows how all people

Reader Endorsements

"As an aspiring writer myself, I realize the amount of work that goes into writing a book such as you have so masterfully done in yours. The research that you have put into these works is incredible, and the fact that you can synthesize it all into a flowing, unique work is commendable." - **Walter Rogoza, M. Div, Ontario, Canada**

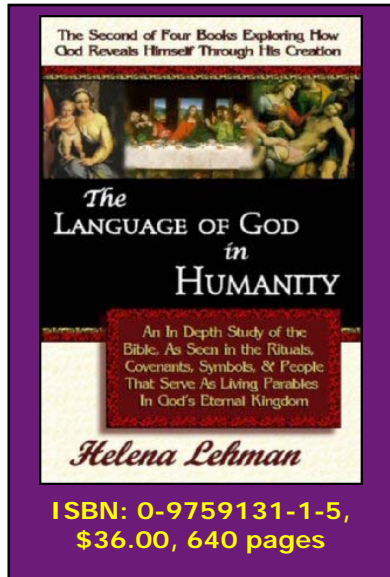

"Lehman has the ability to take heavy, deep facts and turn them into an enjoyable page turner. Anyone interested in the stars, in scripture, in history and in mysteries will delight in this fascinating book series." - **Bruce Collins, Book Reviewer, Author, and Big Finale Internet Radio Host**

"I have read many books on subjects like the 7 Feasts, the Tabernacle, the Sabbath, Enoch, the Pyramids, the Zodiac, and the Nephilim, etc., but no author before you has ever tied them together, and then shown how they fit in YAH's Holy plan. Your books are truly inspired by the Holy Spirit." - **Joyce Tapia, Engineer, Texas USA**

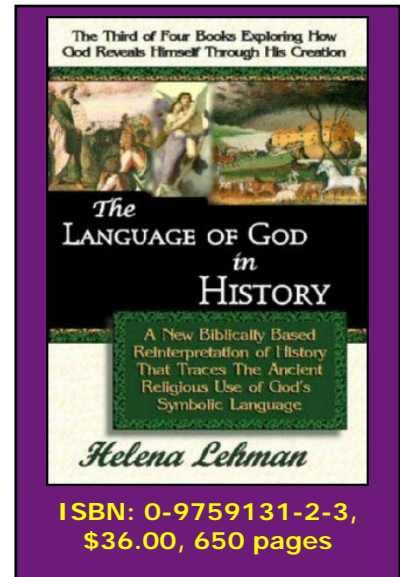

serve as living parables, and potential members of God's family. Using the Language of God as a key, the parables of Yahshua (Jesus), and biblically based festivals such as Passover, Chanukah, and Sukkot also take on far deeper meanings. This fervent new look at Judeo-Christianity also deciphers the prophetic elements in biblically inspired religious buildings such as the Desert Tabernacle, and rituals such as Communion, baptism, and blood sacrifice - and shows how vital and relevant they still are to humanity today.

"The Language of God in History" reinterprets history and archeology within a biblical framework. It does so by refuting the atheistic humanism behind modern archeological, scientific, and historical viewpoints. Then the evidence is examined through a biblical worldview, revealing how many ancient buildings appear to have originally been designed not to worship Pagan deities, but the one true God. By deciphering the Language of God hidden in these ancient structures, some startling conclusions are drawn concerning the spiritual teachings of the godly people before the Flood - especially the prophet Enoch. The pyramids

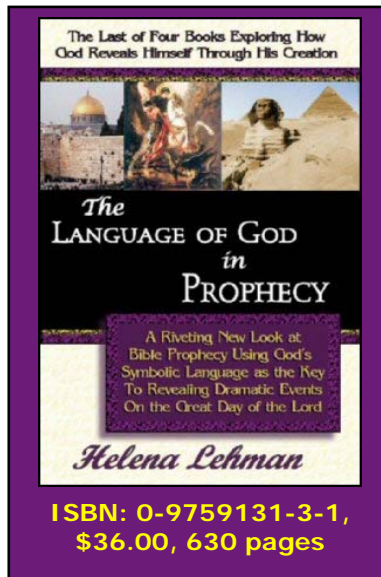

of Egypt's Old Kingdom are particularly examined as possible storehouses of antediluvian spiritual and scientific wisdom.

Next, using facts found in the Bible and the Book of 1 Enoch, the Nephilim, and the possible causes of the Great Flood are explored, as well as the swift Post-Flood devolution of mankind into sin - as Noah and Shem's righteous witness were forgotten, paganism spread across the globe, and Yahweh's truths were gradually perverted - just as they had been prior to the Flood. Finally, the rise and fall of ancient Israel, the facts behind their migrations in the Diaspora, and the re-immersion of Israel in modern times is discussed in preparation for the study of biblical prophecy in the final book.

"The Language of God in Prophecy" is an explosive new exploration of the parable-like images used in biblical and extra-biblical prophecies regarding the End Times. Prophecies found in Isaiah, Daniel, Ezekiel, the Psalms, Revelation, the Book of 1 Enoch, the Great Pyramid, the Great Sphinx, the Mayan Calendar, and the memoirs of George Washington are explored to disclose the End-Time roles of many nations, while dismantling the false doctrines behind British Israelism and Anti-Semitism. In addition, the prophetically revealed roles of the United States, the British Commonwealth, and modern Israel are re-examined, challenging many incorrect notions about God's vision for the End Times.

In addition, the Great Pyramid and several other Ancient Egyptian monuments are conclusively shown to be secret repositories of the complex scientific, spiritual, and prophetic knowledge of the godly antediluvian descendents of Seth. These monuments reveal the arcane knowledge of the Sethites, their keen familiarity with the Gospel in the Stars, their deep understanding of the purpose of Christ, and their acute acquaintance with the unfolding of End Time events - long before the Bible was written.

About Helena Lehman

Scholar, Author, and Artist Helena Lehman is an avid student of the Bible and ancient history, and an expert on the connection between the Bible, the Gospel in the Stars, the Desert Tabernacle, and the Great Pyramid. Her writings explore the ancient and divine roots of the Star Gospel, and their place as the cornerstone of the Language of God - a divine allegorical language of parables and symbols that permeates every book of the Bible, and all Creation.

Helena has spent many years in intense research, becoming a self-made scholar in diverse areas such as ancient history, astronomy, comparative religion, and theology - where she writes on apologetics, eschatology, exegesis, and hermeneutics. She has many writing projects underway, and is available to speak at special events.
